

Occupational Health & Safety Policy

The scope of Veolia Environmental Services' activities is the provision of Environmental waste and recyclable management as well as industrial services throughout South Africa.

Veolia Environmental Services South Africa recognises that excellence in managing health and safety is essential for long term success. We are committed to preventing work related injuries and health impairment of our employees, contractors, clients and the general public.

This will be achieved by implementing a safety management system which will drive the manner we execute our daily tasks and lead us to continually improve in every aspect of our business

We aim to identify, assess and prioritise the hazards and risks associated with our activities, in carrying out our core business in a legal and safe manner. We intend to become market leaders by offering our clients a superior service, without compromising health and safety standards.

We commit to the following objectives:

1. To comply with relevant national legislation, OHS legislation and other requirements.
2. To establish, communicate and maintain documented health and safety procedures, instructions and standards to all personal at all levels and functions
3. VES will assign responsibility to all employees and make them aware that we will emphasise individual responsibility for health and safety. All employees will be informed, trained and motivated in respect to their individual OH&S obligations which will include the reporting of potential hazards
4. We will establish an infrastructure that will enable us to respond promptly to incidents, enquiries and emergencies and will ensure that corrective and preventive actions are expedited.
5. We realize that it is essential to take cognisance of the views of interested parties, both internal and external and establish appropriate communication channels with these people
6. We will monitor periodically, review and confirm the effectiveness of this health and safety management system to meet the changing needs of a developing company taking new legislation and other requirements into consideration.

R. Sanders – Chief Executive Officer
